

Topic Tastic!

This half-term, Year 5 are learning about the 'Great Barrier Reef' in topic lessons.

The Great Barrier Reef is found in the Coral Sea, off the coast of Queensland, Australia and it is the world's largest coral reef system, with over 1500 different species of fish and sea creatures.

Did you know that the Great Barrier Reef can even be seen by the astronauts in space?

Take a look at Year 5's amazing 'Great Barrier Reef' display boards:

Mackay

Hamilton

Fitzroy

Wilson

Brampton
