

We are  
gardeners!

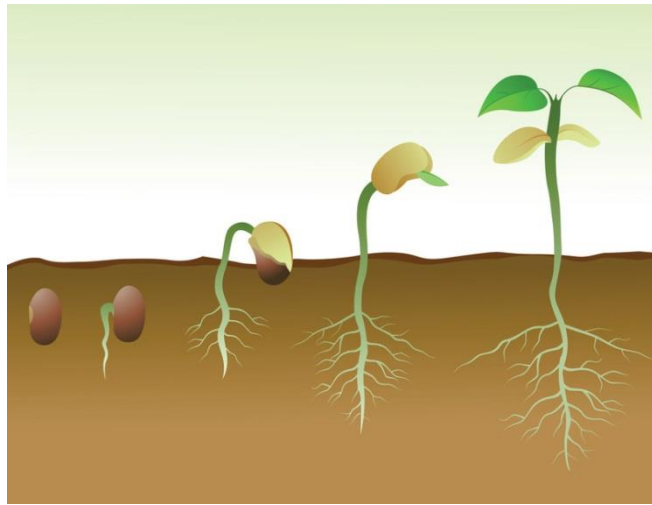

# What we are learning.....

- This half term, we have been learning all about plants:
  - How to plant a seed.
  - Parts and functions of a plant.
  - Identification of different plants.

# What have been planting...

We have created an investigation to see under which condition plants will grow the best.  
Will it be inside or outside?

## What we know.....

Plants grow from seeds and need to be planted in soil.

## We know the parts of a plant

Plants have:

- Roots
- Leaves
- Flowers
- Fruits

# We know what they do....

- Roots keep the plant anchored to the soil.
- Roots transport water to the rest of the plant.
- The stem keeps the plant upright.
- The stem also transports water.
- The leaves create food for the plant.

**All of this helps the plant grow!**

# The plants that we know.....

Poppy

Daisy

Dock

Cow Parsley

Buttercup

Dandelion

Pansy

Rose

Stinging Nettle

# What you can do....

- Go for a walk with your children and see if they can find and describe the plants that they see.
  - Do they know the names of the plants?
  - Can they name each part of the plant?
  - Do they know the functions of each part of the plant?
- Plant some seeds and keep a track of the plant growing.
