

Dear Parents,

We are one of four Luton schools who are collaborating to radically change and improve the provision of schools meals. We have created a “Food Counts” vision, which intends to:

- Improve the nutritional content of school meals;
- Increase the up-take of school meals by children who attend the schools;
- Improve the healthiness of food used in the preparation of meals by the introduction of fresh and/or organically grown produce;
- Reorganise school lunchtimes to impact positively on children’s experience of schools;
- Raise the educational achievements in schools, and
- Change the eating culture.

We have employed a highly qualified and experienced chef, Mark Passarelli, as Catering Manager. He designs all our menus and oversees the dinner experience in all four schools.

Yours sincerely,

K. Hooker
