

Beat It Maths and Timestables

Every week, your child will have a Beat It Maths challenge where they will have the chance to beat their previous score. These challenges will enable your child to become quicker in mental calculations.

They will bring their sheet home so you will be able to see the areas they need to improve in to achieve a higher score.

Children must also learn their weekly timestables as they will be tested the following week in both multiplication and division facts up to 12×12 .

Please support your child in this.
