

Helping all learners reach their full potential.

Year 3 Teachers would like to share some ideas with you. Simple activities you can try at home to support your child's development. From calming down techniques to activities which will help develop your child's social and emotional skills.

#### Activity 4:

#### All boxed up!

#### All you need:

- Large Cardboard box
- Pack of felt tips/ Crayons

#### Directions:

The bigger the box the better! Child can sit inside and draw or just colour from the inside out.

If you don't mind a little extra mess, you could always provide children with scrap paper. They could cut out various shapes and stick on the box. Another great way to reuse items!

(My 4 year old and 8 year old were busy doing this for around an hour and a half. No arguing just peace and quiet. The little one sat inside colouring while the older worked on the outside of the box – Mrs Ali)
