

## Week beginning Monday 11<sup>th</sup> November 2019

In **Literacy** this week, we planned to write an information report about the Great Fire of London. We wrote under three sub-heading: Where and how did the fire start? Why did the fire spread? and How was the fire put out?

### Plan

We used facts as this was an information report and added conjunctions and adjectives to give more detail. Also, we tried to add the punctuation we learnt last week (? and !).

In **Numeracy** this week we have been adding and subtracting. We started off by adding and subtracting 10 from any number! This is so that it will be easier for us when we add two 2 digit numbers on an empty number line. **Remember:** when we add tens to a number the **Tens** change but the **Ones** stay the same. We then moved onto adding two 2 digit numbers onto an empty number line, here are the steps to remind you:
