

Week ending 8th November 2019

Literacy

After returning from a week's break the children have started a narrative unit about animals. They will be using this unit to practice their speech punctuation and look at how authors use contrasting animals to make a story interesting.

Maths

Now the children have their ipads, they are really starting to get into learning their times tables using TT Rockstars! We are already seeing children's times tables knowledge develop.

Topic

Our topic this term is London. We have started by looking at the geography of London and why capital cities are located where they are. The children are very much looking forward to the visit to the Tower of London next week!
