

Literacy

This week we have been reading 'Puss in Boots'. We are beginning to answer questions in order to understand the story. Can your child tell you what happens in the story?

Phonics

This week we have been learning the sounds l and h and have begun trying to write simple words. Try and see if your child can write or read hug, leg, hat, log, hip and lit.

Maths

In maths we have been talking about height. We have been building towers of different heights and using short and tall to describe them.

Creative and outdoors

This week we've been making Puss in Boots stick puppets and using them to act out the story.

We've used lego and other construction materials to build beautiful castles and carriages for the Prince, Princess and Puss.

We've drawn and painted pictures of Puss and the other story characters.

We've had fun walking on the field looking for signs of Autumn and then making crowns with leaves.

Outdoors we've been learning about height and making tall and short castles and towers with blocks, pebbles and sand.
