

Literacy

This week we have continued to read and learn the story map of 'Hansel and Gretel'. We have also looked at the book, read the story and looked carefully at what is happening in the pictures.

Phonics

This week we have been learning the sounds y, x, z and w and we have begun trying to write simple words. Try and see if your child can write or read fox, web, yak, wed, yup, win and went.

Maths

During maths we have been revisiting our previous learning. We've been adding one more sweet in turn to the gingerbread house and then counting the total. We have also worked on weight and shape. See if we can spot any shapes at homes.

Creative and outdoors

We've continued drawing, painting and making models and collages of the wicked witch in the Hansel and Gretel story.

Outdoors we've had fun using the parachute and adding one more toy each time to a group. After that we bounced all the toys off by shaking the parachute!
