

Literacy

This week in literacy, we have been learning all about Winter. We have been on a winter walk and seen the changes that happen.

We've also shown and talked about how we made our snowman models at home.

Phonics

This week we have been learning 'qu' and revising all the sounds that we learnt last term.

Maths

We have been learning about height this week and have been introduced to the words short and tall.

We have been building towers and comparing the height of them to see which is the tallest and which is the shortest.

Outdoor Learning and Creative Development

This week we've been drawing, printing and painting ourselves as snowmen. We've made snowmen from dough, clay and lego, and also with recycled materials. We've looked for signs of winter and taken lots of interesting photos on our winter walks on the school field. Toby found this thin stick shaped like the letter *O* ! We've enjoyed making snowmen and winter pictures from leaves and twigs.
