

Week ending 6th March 2020

Literacy

This week in literacy, the children have been learning about Play scripts. They have read through the story of 'Ala al Din and his wonderful Lamp'. After looking at the layout and features of a play script, the children wrote their own play scripts and acted them out.

Maths

This week the children have moved into translating shapes and describing their new positions on an x and y axis grid. They have also plotted points on the grid using coordinates.

World Book Day

The children have thoroughly enjoyed World Book Day this week. Each class has been immersing themselves in chosen books and carrying out tasks relating to them.
