

Week ending 18th September 2020

Literacy

This week, we have continued to look at contrasting characters which the children have enjoyed. They have all now started to plot their own animal narratives and we are excited to read their stories in the near future.

Maths

In maths this week, we have been adding two 4-digit numbers. The children have been using column method while working out their calculations.

Science

This week, the children explored making and changing the shape of shadows using different objects. By the end of the lesson they understood that shadows are the same shape as the object that blocks the light.
