

## Week beginning 14<sup>th</sup> June 2021

### Maths

This week we have continued learning about money and solving word problems involving money.

### Literacy

We have continued reading our book, 'The Train to Impossible Places' and started looking at some impossible places under the sea.

### Adventure Day

The children had a fantastic day and were given the opportunity to take part in climbing, laser tag, skateboarding, aeroball and team building games. It was great to see so many children enjoy the activities and gain confidence in trying something new. There are lots of photos for you to look at on the main page but these are just a few!
