

**Week ending: 3.9.21**

*Hola!*

A warm welcome back to a fresh school year. We hope you all had amazing summer breaks.

We have had a super first week in Year 3! The children have settled well into their daily routines. We have an exciting term ahead.

This week we have introduced the children to our first topic: The Stone Age. They already know that there are three key time periods within the Stone Age.

In Numeracy, we have started a two week unit on Calculation. In this topic, children will recap mental and written strategies they learnt in Year 2 for Addition, Subtraction, Multiplication and Division.

**Things to remember:**

Your child should be reading at home at least 3 times a week, learning their spellings and completing any homework set via Google Classroom.

**Your children should know when they will have P.E and on these days they are allowed to come to school in their P.E kit provided that it is the full Downside P.E kit.**

We are really looking forward to working with you all this year.

The Year 3 Team
