

Week beginning 22/11/21

Welcome to our Year 5 page! It's Haroon and Noor here from Hamilton class.

We are here to keep you updated on what is happening in Year 5.

Last week was Anti -Bullying week 2021 and the theme was 'One Kind Word'. We all had a lot of fun creating posters about ways to show kindness. Many of us, showed kindness to others at Downside. Do you know that even a smile can show kindness?

In Numeracy, we have been interpreting data in line graphs and two way tables. We learnt that statistics show data that has been gathered.

Our topic for Science is Space. We have been learning about the planets and used our learning in Numeracy to draw bar graphs showing length of time it takes each planet to orbit the sun. Neptune takes around 164 years!

Quick fun fact: Did you know that the sun is almost a perfect sphere?

Thank you for reading our page. See you all next week and remember keep smiling!
