

Hello parents/guardians,

We would like to inform you about what the year 6 students have been doing this week.

Firstly, we've been focusing on our mocks SATs, which have been given to previous year 6's as their certain SATs. From the scores last term we achieved, we can definitely see an improvement! This is something we should be proud of; especially since we have missed a lot of lessons during lockdown. As year 6 pupils we can assure you that most of the credit goes toward the teachers for helping us when we came back from online learning.

In addition to this, we have been learning about pitch in science and were testing different experiments, such as hitting chime bars of different lengths, pinging a ruler from the end of a desk, tapping glass jars with different amounts of water in them and lastly pulling elastic bands of various thickness across them!

Also, we would like to mention that we have been reading the book 'The Explorer' By Katherine Rundell! Currently, we are on chapter 4- Stuck In The Mud. This book tells us about four children, whose plane had crashed on the way to Manaus, in the Amazon Rainforest and now they are trying to find their way back home.

There are plenty of more fun subjects we'd like to tell you all about but we don't want to miss more lessons!

By Alesha Sohotra and Fatima Kiyani,

From Spitfire Class.
