

In Maths we have been exploring money and finding different ways to buy items.

We have also been learning about the illustrator Quentin Blake. We have studied his drawing style and have used different types of line to create characters in his style.

The children have received their new spellings for the half term. We will be learning the rules at school but don't forget to practise them at home too!

Year 2 are focusing on their handwriting this half term. You can see handwriting prompts and formation on the year 2 page to help your child with their handwriting at home!
