

Week beginning 28th February 2022

Maths

This week we moved onto multiplication and division. We began by learning the facts for the 11 and 12 times tables, using strategies such as partitioning to help memorise them. We moved on to multiplying 3 separate numbers before ending the week by understanding and listing factors of a number.

Literacy

This week we started the first week of our fantasy setting unit. We began by recapping prior learning of describing settings before using their senses to describe pictures of various different fantasy settings. Children read examples of setting descriptions from *Charlie and the Chocolate factory* and *the Wizard of Oz*, identifying features and identifying ambitious vocabulary. We ended the week by writing sentences that included similes and personification.
