

## Week beginning 21/03/22

Hi! It's that time of the week again. Fitzroy Class letting you know how the week has gone in Year 5.

In *Maths* we are coming to the end of fractions and will, next week, move on to the topic of decimals and percentages. We are not quite sure what this will involve, but we are up for the challenge. 🧑🍳

In *Literacy* we are continuing with work based on the book 'Skellig'. At the moment we are concentrating on how we would give advice to Michael to help with the many personal problems he has. An interesting time!!

Our *Topic* work and *Reading* lessons continue to focus on aspects to do with 'Skellig'. As well as working our way through the book, we are currently putting together a play script based on a particular part of the book.

In *ICT* we are nearing the end of 'Scratch'. We devised our own Splat game this week.

At last we can tell you how the cooking went!! We had a really good workshop all about Chinese food. We were shown how to make spring rolls (Skellig's favourite food) and then made our own. They were delicious. Definitely want to do something like that again!! 🧑🍳👨🍳

Have a good week.
